† The new EBV-144-A isolated solenoid replaces the solenoid used with the old style black EBV-26-A modules only. For blue EBV-146-A-U or EBV-146-A-C G2 modules, use the EBV-136-A isolated solenoid operator. Refer to Page 3.2.9 for instructions regarding solenoid replacement.

‡ Beam deflectors are for use on black, old style modules. They are not required (and will not work) on Blue G2 modules.
