- **99313941** Renewable Unit, Compression Control, Round Serrated Stem, Right Hand Thread
- **99313942** Renewable Unit, Compression Control, Round Serrated Stem, Left Hand Thread

BNV100 SERIES
Round Serrated Stem

BNV200 SERIES
Tapered Square Stem

99313941 **Renewable Unit, Compression Control, Right Hand Thread**
Cartridge rotates counterclockwise to open.

99313942 **Renewable Unit, Compression Control, Left Hand Thread**
Cartridge rotates clockwise to open.

99102395 Packing Nut O-Ring (pkg of 6)

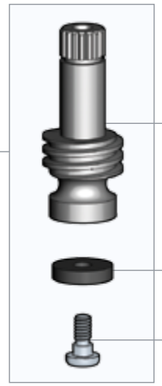

99901928 Valve Stem Packing with Internal O-Ring (pkg of 6)

20001 Retainer Washer (pkg of 6)

20002 Stem Friction Ring (pkg of 6)

99833479 Valve Stem with Disc and Screw (Assembled), Right Hand Thread (pkg of 6)

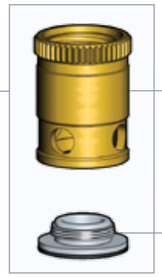

99833480 Valve Stem with Disc and Screw (Assembled), Left Hand Thread (pkg of 6)

99442159 Valve Stem, Round Serrated End, Right Hand Thread (pkg of 6)

99015002 Valve Stem, Round Serrated End, Left Hand Thread (pkg of 6)

99015003 Valve Disc (pkg of 6)

99833478 Valve Disc Screw (pkg of 6)

99500067 Barrel and Seat (Assembled), Right Hand Thread (pkg of 6)

99885555 Barrel and Seat (Assembled), Left Hand Thread (pkg of 6)

20003 Barrel, Right Hand Thread (pkg of 6)

99280461 Barrel, Left Hand Thread (pkg of 6)

99313297 Stainless Steel Seat With BNV025 Unit Washer (Assembled) (pkg of 6)

- **L100 / 101 / 102 / 112** Atmospheric Vacuum Breakers

WaterSaver atmospheric vacuum breakers were redesigned in 2004. Vacuum breakers manufactured prior to 2004 utilize a float cup with a cone-shaped bottom. Vacuum breakers manufactured after 2004 utilize a float cup with a cylinder-shaped flat bottom (shown below). The new float cup incorporates a small sealed air pocket that gives the float cup increased buoyancy and reduces spillage at low flow.

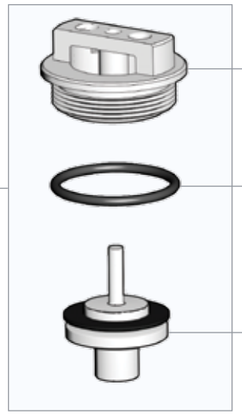

Internal components for the new style construction can be used in faucets manufactured prior to 2004. However, in such older faucets, the new components might reduce the water flow through the vacuum breaker. If this occurs, it might be necessary to install the old style components in the vacuum breaker (order "RK100R-OS"). Please consult with the WaterSaver factory for further assistance.

99090555 Cover Screw (2 Required) (pkg of 12)

99450136 Vacuum Breaker Cover (pkg of 6)

99462482 Plastic Vacuum Breaker Bonnet (pkg of 6)

99340954 Bonnet O-Ring (pkg of 6)

99032065 Bonnet Gasket (pkg of 6) *(Used on vacuum breakers manufactured prior to 2004)*

99150371 Vacuum Breaker Repair Kit (pkg of 6 of each component)

79014 Polypropylene Float Cup with Vent Disc (assembled) (pkg of 6)

99590730 Vacuum Breaker Body with BO324A Seat (assembled) (3/8" FNPT Inlet and Outlet)

99901929 Vacuum Breaker Body with BO324A Seat (assembled) (1/2" FNPT Inlet and Outlet)
